

TRUSTEES' MEETING

EXPRESS APPRECIATION FOR SERVICES OF RETIRING BUILDING INSPECTOR

The Board of Trustees met in regular session at the City Hall, at 8:00 p. m. November 15, 1917. All members present at roll call.

The minutes of the last regular meeting were read and approved.

Applications were received for permits to hunt within the city limits from O. N. Beam, P. Diederich, R. P. Foss, N. L. Westbrook, J. B. Severns, P. C. Ensley and N. A. Sears. Upon motion of Trustee Grist, permits were granted on the usual condition that permit also be received from the property owners.

A communication was read from the Railroad Commission of the State of California giving notice of a change in the hour and the place of hearing in the matter of the application of the San Fernando Valley Home Telephone Company for authority to sell property and franchises to the Pacific Telephone and Telegraph Company; the hearing being now set for 7:30 p. m. Wednesday, November 21st in the Glendale City Hall. On motion of Trustee Muhleman, this matter was referred to the City Attorney and the Manager of the Public Service Department.

A communication was read from the United Brotherhood of Carpenters and Joiners of America, Union No. 563, City of Glendale, requesting information as to the recent change in the office of Building Inspector. On motion of Trustee Jackson, the communication was referred to the City Manager for a reply.

Trustee Woodberry offered the following resolution which was adopted:

Whereas, J. M. Banker, former Building Inspector for the City of Glendale has tendered his resignation, and the same has been accepted by this board, and

Whereas, Mr. Banker has filled said office for many years with credit to himself and the people of the city.

Now, therefore, be it resolved by the Board of Trustees of the City of Glendale that we hereby express our appreciation to Mr. Banker for his extended, capable and efficient public service rendered the city during the time he held the office of Building Inspector, and cheerfully commend him to any fields of endeavor in which he may choose to cast his lot. That this resolution be spread on minutes of this Board and a copy of same be sent to Mr. Banker.

The weekly report of the Tax Collector, was received and ordered to be filed.

A written report was received from the City Attorney in regard to the authority of the Board of Trustees in regard to the erection of a flag pole on a public street, the substance of the opinion being to the effect that the Board should be governed by the facts and circumstances in each particular case in granting or refusing a permit.

The City Manager made a statement in regard to the feasibility of erecting a flag staff at the northeast corner of Brand boulevard and Broadway, and on motion of Trustee Muhleman, this place was decided upon as the site for the pole; provided that the consent of the Railroad Company could be obtained—the city to bear the expense of putting the pole in position and of raising and lowering the flag daily; provided that the cost of the pole could be obtained otherwise than from the city treasury.

The report of the City Attorney was received and ordered to be filed.

The City Manager submitted a written report covering the work of the Street Department for the past four months. On motion of Trustee Woodberry, the report was received and ordered to be filed, and the City Manager and the Street Department commended for the good work accomplished.

Trustee Woodberry called the attention of the Board to the number of trees on Adams street which property owners desired to have removed, and on motion of Trustee Muhleman, it was ordered that the removal of such trees be permitted under the direction of the City Manager.

The City Attorney presented a written communication in regard to the case which he had caused to be filed by a member of the organization against the Elk's Club, for the purpose of getting an adjudication of the liquor ordinance of the City of Glendale. The report stated that Judge Jackson had refused to grant the injunction on the sole ground that in his opinion injunctive relief did not lie inasmuch as the same question could be tested in the criminal court on a Writ of Habeas Corpus.

The City Attorney advised that appeal be taken from the decision of Judge Jackson in this matter, although it would probably be a matter of two or three years before the Su-

ENDLESS CHAIN LETTERS

PRAYER LETTERS ARE MAILED TO EMBARRASS POSTAL AUTHORITIES

You may have received one of the endless chain letters which are being circulated with the intention, it is alleged, of causing embarrassment to the United States government by seriously inconveniencing the mail service to no purpose. It has been claimed that this idea originated with foreign sympathizers who are working by every means, petty as well as dangerous, to cause trouble. The purport of the letter may carry an appeal to many as it seemingly voices a prayer felt by us all, but the wording is sufficiently ambiguous to warrant it's being passed over by anyone who gives it serious thought. The use of superstition in its message is alone enough to condemn it. Miss Eusebia Farrand, of 415 East Colorado street, who was the recipient of one of these chain prayers, promptly and very wisely took the missive to the local Postoffice authorities, who sent her with it to the Glendale Evening News with the request that this notice be printed. The "prayer" follows:

"Endless Chain of Prayers."

"Oh, God, I implore thee to bless our soldiers and sailors and keep them in the hollow of thy hand. Amen." This has been sent to me, and has been sent all over the world. Copy it and see what happens the seventh day. They say in olden times that those who wrote would be free from pain, but those who passed it by would meet with misfortune. Send it to seven persons, and the seventh day you will meet your pay. Do not delay, and begin when you receive this. Be sure you do not break the chain and fail to write the intention plainly."

Of course some well intentioned though misguided person may innocently have begun this chain with an idea of real service, but even so, the public should be warned against causing the unnecessary work entailed in handling a flood of responses at a time when the strength and efforts of every individual in the government is so heavily taxed. We still have our "closets" and our churches to do our praying in.

MISSIONARY WORK IN MEXICO

The Women's Foreign Missionary Society of the First Methodist church met Thursday at the parlors of the church at 2:30 p. m. The president, Mrs. Johnson, was in the chair. Mrs. E. Hoskyn, conducted the devotional exercises. After the usual business was disposed of, Mrs. Corbin, who has spent 36 years as a missionary in Mexico, gave a very able and instructive address. Her husband is still in Mexico, conducting missionary work on the western coast. She gave incidents of the trials and victories attending their work; they were truly wonderful and just the information the workers at home need, and above all, the deep, spiritual truth stirred our hearts as she related how Christ could save so wonderfully the lowest and most depraved of His children. There were present about 30 ladies and we wished more could have been there. After the address and a social hour the meeting adjourned feeling that it was good to have been there.

The Red Cross Drive committee reports the following additional contributions: C. E. McPeak, \$2; Jessie B. Payne \$10.

preme Court would furnish any decision.

On motion of Trustee Woodberry, the report was ordered to be received and filed, and the City Attorney instructed to file an appeal in the case.

On motion of Trustee Grist, Ordinance No. 317, "An ordinance providing for the issuing of bonds of the City of Glendale in the sum of \$17,000.00 for the acquisition by said City of fire fighting apparatus and equipment," was taken up for third and final reading, and upon being read, was on motion, adopted.

On motion, "An Ordinance of the Board of Trustees of the City of Glendale changing the name of a portion of Penn street in said city," was taken up for reading. On motion this ordinance was declared read for the first time and was taken up for the second reading. On motion this ordinance was declared read for the second time and was laid over till the next regular meeting for the third and final reading.

The President of the Board reported having been served papers in the Kenyon case, demanding that a warrant be issued in the payment of the sum of \$250; the amount of the judgment rendered by the court. On motion, the matter was referred to the City Attorney.

MR. DAMON SPEAKS

CIVIC PROGRESS DURING WAR TIME. CITY MUST FIND ITSELF CITY PLANNING

George A. Damon, technical director of the Pasadena planning committee, addressed the merchants and professional men at a get-together luncheon at the Masonic Temple Thursday, November 15. He spoke substantially as follows:

"Every city in order to develop a distinctive individuality, must 'find itself.' The best example that we have, as a people of finding ourselves is our own national progress since entering the war. Two years ago it was almost unthinkable that we would be a united nation sending millions of men 'over there' and backing them up with billions and billions of dollars. Today we have already learned that to win the war we must be 100 per cent loyal—and before long we must raise our percentages of sacrifice and of efficiency much nearer than we yet have to the 100 per cent mark. We have found out that, as a people, we can work and think together, and we must do this in our civic affairs.

This great living district of which we are a part is made up of a metropolitan 'center,' surrounded by numerous satellite sub-centers, of which Pasadena, Alhambra, Long Beach, Santa Monica and Glendale are typical. This whole district has common problems, such as sewerage, flood control, transportation and boulevards, for which we need an efficient central government. But 'annexation' to Los Angeles, to form a 'greater city' is not the answer. What we want is an opportunity for each satellite center or community to retain and develop its own independent identity; to become 'different' by the individual effort of its citizens.

In Germany we would have no such opportunity—and it is for just this privilege of doing as we please that we are willing to make every sacrifice necessary to win this war for democracy. But we must find some better way than we have yet discovered to make this democracy worth the lives which are to be paid for it.

The German City Council is composed of two-thirds selected by the voters, who pay the largest income taxes. In this way, about 10 per cent of the voters control the destiny of the city. Managers, mayors and experts are hired and the city is planned and operated on a strictly scientific basis. In teaching the Germans our democracy, we must learn from them something about their efficiency.

Our American cities will always be in the hands of the people, irrespective of their tax-paying ability; but as a people we must learn to get together on what we want; we must find out how to make up our 'city mind,' and then our local democracy will be safe and sound.

City Planning

The best way to approach 'city planning' is to make an inventory of what we have already accomplished. Find out what a boy has been interested in doing and you can discover his aptitude and help shape his future as a man. Let us look about us (Continued on Page Three.)

QUIET WEDDING

The home of Rev. and Mrs. C. R. Norton, 373 West Third St. was the scene of a very quiet, but pretty wedding Thursday, November 15, at 11 a. m., when Mr. Walter G. Grether and Miss Blanche L. Dorgan, both of Los Angeles were united in the holy bonds of marriage by Rev. Norton. Only the members of the Norton family were present to witness the taking of the wedding vows and speed the happy pair on their wedding journey. The bride is a dear friend of long standing of the Norton family. Mr. and Mrs. Grether left Thursday afternoon on a short honeymoon trip to San Diego. They will make their home in Los Angeles.

SATAN WRITES TO KAISER BILL

Louis Syberkrop of Creston has acquired much fame in recent weeks as author of a satire on Kaiser Wilhelm. Requests have come to him from Tumulty, Secretary Daniels and Roosevelt, and people in every state of the Union and in Canada have asked for copies of Mr. Syberkrop's article. It is:

"Ottumwa, Iowa.
"The Infernal Region.

"June 28, 1917.
"To Wilhelm von Hohenzollern, King of Prussia, Emperor of all Germany and Envoy Extraordinary of Almighty God:

"My Dear Wilhelm:

"I can call you by that familiar name for I have always been very close to you, much closer than you could ever know.

"From the time that you were yet an undeveloped being in your mother's womb I have shaped your destiny for my own purpose.

"In the days of Rome I created a roughneck known in history as Nero, he was a vulgar character and suited my purpose at that particular time. In these modern days a classic demon and efficient super-criminal was needed and as I know the Hohenzollern blood I picked you as my special instrument to place on earth an annex to hell. I gave you abnormal ambition, likewise an over supply of egotism that you might not discover your own failings; I twisted your mind to that of a mad man with certain normal tendencies to carry you by, a most dangerous character placed in power; I gave you the power of a hypnotist and a certain magnetic force that you might sway your people. I am responsible for the deformed arm that hangs helpless on your left, for your crippled condition embitters your life and destroys all noble impulses that might otherwise cause me anxiety, but your strong sword arm is driven by your ambition that squelches all sentiment and pity; I placed in your soul a deep hatred for all things English, for of all nations on earth I hate England most; wherever England plants her flag she brings order out of chaos and the hated cross follows the Union Jack; under her rule wild tribes be-

come tillers of the soil and in due time practical citizens; she is the greatest civilizer of the globe and I HATE HER. I planted in your soul a cruel hatred for your mother because SHE was English and left my good friend Bismarck to fan the flame I had kindled. Recent history proves how well our work was done. It broke your royal mother's heart, but I gained my purpose.

Killed Father

"The inherited disease of the Hohenzollerns killed your father, just as it will kill you, and you became the ruler of Germany and a tool of mine sooner than I expected.

"To assist you and further hasten my work I sent you three evil spirits, Nietzsche, Treitschke and later Bernhardi, whose teachings inflamed the youths of Germany, who in good time would be willing and loyal subjects and eager to spill their blood and pull your chestnuts, yours and mine; the spell has been perfect—you cast your ambitious eyes toward the Mediterranean, Egypt, India and the Dardanelles and you began your great railway to Bagdad, but the ambitious archduke and his more ambitious wife stood in your way. It was then that I sowed the seed in your heart that blossomed into the assassination of the Duke and his wife, and all hell smiled when it saw how cleverly you saddled the crime on to Serbia. I saw you set sails for the fjords of Norway and I knew you would prove an alibi. How cleverly done, so much like your noble grandfather who also secured an assassin to remove old King Frederick of Denmark, and later robbed that country of two provinces that gave Germany an opportunity to become a naval power. Murder is dirty work, but it takes a Hohenzollern to make away and get by.

Perfect Hell

"Your opportunity was at hand; you set the world on fire and bells of hell were ringing; your rape on Belgium caused much joy, it was the beginning, the foundation of a perfect hell on earth, the destruction of noble cathedrals and other infinite works of art was hailed with joy in the infernal regions. You made war on friends and foe alike and the murder of civilians showed my teachings had borne fruit. Your treachery

toward neutral nations hastened a universal upheaval, the thing I most desired. Your under-sea warfare is a master stroke, from the smallest mackerel pot to the great Lusitania you show no favorites; as a war lord you stand supreme, for you have no mercy; you have no consideration for the baby clinging to its mother's breasts as they both go down into the deep together, only to be torn apart and devoured by sharks down among the corals.

"I have strolled over the battlefields of France. I have seen your hand of destruction everywhere; it's all your work, super-fiend that I made you. I have seen the fields of Poland; now a wilderness fit for prowling beasts only; no merry children in Poland now; they all succumbed to frost and starvation—I drifted down into Galicia, where formerly Jews and Gentiles lived happily together; I found but ruins and ashes; I felt a curious pride in my pupil for it was all above my expectation. I was in Belgium when you drove the peaceful population before you like cattle into slavery; you separated man and wife and forced them to hard labor in trenches. I have seen the most fiendish rape committed on young women and those who were forced into maternity were cursing the father of their offspring and I began to doubt if my own inferno was really up to date.

Destroyed Everything

"You have taken millions of dollars from innocent victims and called it indemnity; you have lived fat on the land you usurped and sent the real owners away to starvation. You have strayed away from all legalized war methods and introduced a code of your own. You have killed and robbed the people of friendly nations and destroyed their property. You are a liar, a hypocrite and a bluffer of the highest magnitude. You are a partner of mine and yet you pose as a personal friend of God. Ah, Wilhelm, you are a wonder. You wantonly destroy all things in your path and leave nothing for coming generations.

"I was amazed when I saw you form a partnership with the impossible Turk, the chronic killer of Christians, and you a devout worshiper in the Lutheran church. I confess, Wilhelm, you are a puzzle at times. A Mohammedan army commanded by German officers, assisting one another in massacring Christians is a new line of warfare. When a Prussian officer can witness a nude woman being disowned by a swarthy Turk, committing a double murder with one cut of his saber, and calmly stand by and see a house full of innocent Armenians locked up, the house saturated with oil and fired, then my teachings did not stop with you, but have been extended to the whole German nation. I confess my Satanic soul grew sick and there then I knew the pupil had become the master. I am a back number, and my dear Wilhelm, I abdicate in your favor. The great key of hell will be turned over to you. The gavel that has struck the doom of damned souls since time began is yours. I am satisfied with what I have done; that my abdication in your favor is for the very best interests of hell—in the future I am at your majesty's service. Affectionately and sincerely,
"LUCIFER H. SATAN."

THE GATE TO A CAREER

On one of his trips to Philadelphia James G. Blaine, who had been a newspaper man in his early life, visited a newspaper office here.

To Joseph M. Rogers, who was then a reporter, but who since has written many things, including a capital life of Henry Clay, the "Plumed Knight" observed:

"The newspaper business leads to any career—if you leave it soon enough."

He left it when a youth, but the best advertised and most widely known American today took up newspaper work after being President of the United States.

Colonel Roosevelt graduated from the White House into an editor, whereas Blaine failed to graduate from an editorship into the White House. Girard in Philadelphia Telegraph.

SWISS UNIVERSAL TRAINING

At the age of ten every Swiss schoolboy begins his programme of physical training, consisting of the practice of exercises selected after long experience and applied in keeping with their value as regards a systematic, harmonious training of the body and development of its organs.

At ten the boy spends two hours a week only, while at fifteen he devotes one hour a day to such exercises.

The military training without arms in absolute accordance with army regulations is regarded as the most important feature of this training.

In his nineteenth year every Swiss male has to undergo a mental and physical examination. If he passes the test he is recruited as an infantry soldier and enters the service in his twentieth year.

One hundred and ninety-three days, or an average of less than nine days per year for twenty-two years, is the maximum peace service demanded of a Swiss private of infantry.

As a result of the Swiss system the Swiss citizen soldier is the equal of any regular soldier in the world; and yet instead of making arms his profession, as the regular soldier does, he is free to devote the whole of the productive period of his life almost exclusively to the pursuits of civil life.

On the day that war was declared between France and Germany, the citizen-soldiers of Switzerland were engaged in the peaceful occupations of civil life. Twenty-four hours later that little Republic, with a population only about 100,000 greater than the population of Massachusetts, had 150,000 trained warriors upon her borders, fully equipped and organized for defense, and 300,000 reinforcements on the march.—National Security League Publication.

MR. DAMON SPEAKS

(Continued from Page One)
and see what we have to start with. Glendale has a superb situation, ideally located among the foot hills. The old lady from Iowa complained that "the mountains cut out the view," but when she looked in the other direction, she could "see off" to her heart's content. Glendale has the soil, the climate and an abundant supply of pure and cheap water; so that the slogan "annexation or no water" of our big neighbor has no terrors.

A broad thoroughfare through the center of a city would be considered worth millions to a city which omitted such a main boulevard in its original plan.

Cheap light, low taxes, good schools, a "city manager" form of government, and fine churches make Glendale an ideal city of homelike surroundings which deserves its reputation of being one of the best places in which to work, to live and to play.

What more does Glendale want? Some time we should have a look at what other cities in Southern California are doing; for what one city can do, all can do equally well or better. Small parks, swimming pools, trees on every street, wider streets on more thoroughfares, civic centers, comfort stations, rapid transit, railroad stations, inviting portals on boulevard connections are a few of the possibilities.

City Planning means a wise foresight and the gradual securing, in accordance with a logical program, of all of the amenities of a perfect city.

Glendale can afford many things. Its tax burdens for municipal purposes is only \$7.37 per capita. Compare this with the city taxes of Alhambra, which are now \$9.38 per capita, Pasadena at \$14.00, and Long Beach \$11.00, and it will be seen that Glendale is in a position to secure anything its "city mind" may conclude it really wants.

"THE WHITE CITY"

By WALT LE NOIR CHURCH American Lake! There "The White City" stands—
The Camp of our Khaki-clad militant bands.

The sheen of their tents flashes bright in the wave
As love in their hearts for the Flag they will save.

Yes, that city is white—not like "the White Way"

Which glitters all night—and then dulls with the day;

For there where the lake and sky are so blue,

The souls of our soldiers keep manly and true.

The verve of the Red Cross and the Y. M. C. A.

Pervades "the White City"—and there it will stay.

That soldier is even the best of the brave,

Who knows what it means his honor to save.

HUMOR THE BEST TONIC

Keep in good humor. It is not great calamities that embitter existence, it is the pretty vexations, the small jealousies, the little disappointments, the minor miseries, that make the heart heavy, and the temper sour. Don't let them. Anger is a pure waste of vitality; it is always foolish, and always unworthy, except in very rare cases, when it is kindled by seeing wrong done to another, or a dumb animal abused; and even that seldom mends the matter. Keep in good humor. Benjamin Franklin's ready smile and indomitable good humor did as much for his country in the old congress as Adams' fire, or Jefferson's wisdom; he clothed wisdom with smiles, and softened contentious minds into acquiescence. Keep in good humor.

Imprisoned suffragist pickets in Washington are threatening to go on a hunger strike. One of the most vital needs of the country today is food conservation, and every little bit in that direction helps.—Norfolk Pilot.

The regular meeting of the Red Cross was held Tuesday afternoon, November 13. Gauze bandages and hospital shirts were worked on. The Red Cross room will now be kept open on Tuesdays from 10 o'clock in the forenoon until five o'clock in the afternoon. Mrs. Goddard will have charge of the room Tuesday morning and different directors will have charge of the room in the afternoon. Remember to do your bit.

The regular meeting of the Improvement association will be held Saturday evening, November 17. A little Thanksgiving playlet will be given by the following children: Janet Metzger, Lois Griffin, Violet Hall, Adams Bolton, Hally Griffin, Honore Griffin, Alta Lea, and Catherine Maynard. A vocal solo by Florence Pate and piano solo by Elsa Anderson. Several girls from Miss Housam's room are planning to give a doll show in the rest room. A small admission will be charged, the proceeds going to the Red Cross. Refreshments will be served.

The regular meeting of the "Busy Fingers" was held Tuesday afternoon November 13. These little people are showing intense interest in their knitting. Several have become so proficient in knitting wash rags that

they are now knitting mufflers for the soldiers.

At the La Canada Congregational church last Sunday, a large and appreciative audience listened to Dr. D. B. Scott's discourse. Let us urge the people of the vicinity to come to hear the thoughtful and timely sermons of this man of wide experience. Rev. Jesse Mitchell of Los Angeles, will preach in exchange with the pastor, at the morning service. At 7:00 p. m. the Christian Endeavor Society will meet. The topic is "Foreign Missions Boards and Their Achievements." At 7:30 p. m. the sixth chapter of Matthew will be studied, under Mrs. Scott's leadership, according to the following plan: (1) The adoption of what practices will prevent hypocrisy according to this chapter? (2) Classify the chapter's teachings concerning prayer. (3) Is verse 8 an argument against prayer? (4) In what ways were Pharisees and Gentiles unlike in prayer? (5) In what ways were the disciples to be like the Pharisees and Sadducees and in what way unlike them? (6) Trace the argument backward from 6:33 and then forward. (7) What is the logical connection of verses 19-21 with what precedes? with what follows? (8) What is the "recompense" verses 4, 6, 18? (9) Why is the illustration of birds a striking one? of flowers? (10) What progression is

found in the chapter, first in itself, then in relation to chapter 5? The monthly meeting of the Ladies' Missionary Society will be held on Wednesday afternoon, at 2:30 o'clock, at the parsonage. Mrs. Leright will be the program leader. An apron and candy sale will be held Friday, Nov. 23, at 3 o'clock in the basement of the church. At 6:30 supper will be served at 35 cents a plate.
